

August 2021

Dear Customer

Subject: The EC Regulation 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (“REACH Regulation”) – 219 SVHC’s

Reference: Articles we supply to you

Further to your enquiry in respect of the articles that we supply to you we would like to inform you that we have been conducting a communication and due diligence exercise within our supply chain to ensure that we meet our obligations under REACH.

Upon available information and to the best of our knowledge, all substances contained within our products have been pre-registered either by our supplier, or by their upstream suppliers. We do not foresee any disruption in the supply of our products as a direct result of REACH, but we will inform you if the situation changes.

As an ongoing due diligence exercise we continually undertake a detailed review of the material content across our full product range. Upon available information and to the best of our knowledge, the following products contain SVHC’s:-

Product Range	SVHC Name	SVHC Cas no	SVHC Percentage of overall product weight
All Products	Lead	7439-92-1	<0.01%
Enbray Arrow block contactors	Cadmium Oxide	1306-19-0	<0.085%
MV Full Range Fuses	Cadmium	7440-43-9	<0.1%
MV Liquid Fuses	Cadmium	7440-43-9	<0.1%

We will communicate the results of our review, along with our compliance strategy within the timeframe set in the REACH Regulation.

Kind Regards
